Locking your bike guide

1. Always lock your bike whether you are at home or out and about.
2. When locking your bike place it against a bike rack.
3. When locking your bike use 2 recommended Sold Secure (www.soldsecure.com) recommended locks.
4. Place your first lock around the bike rack and through both seat stays as well as the rear wheel.
5. Place your second lock around the bike rack and around the downtube as well as the front wheel.
6. If you are only able to lock one wheel, it is recommended that you prioritise the rear wheel to be locked first as well as the around the seat stays and/or frame.
7. Lock your bike in a well-lit area ideally where there are other bikes.
8. Make sure your bike cannot be lifted over the object it is locked to.

A – Seat Stay
B – Downtube
